Profile

BSc Computer Science graduate from the University of the Western Cape with a strong foundation in Mathematics, Computer Science, and Physics. I have developed practical software projects involving Python, Java, Unity, data engineering concepts, and hardware-based systems, including an honours strategy game prototype, a student study platform, and an augmented reality mobile application. Through tutoring, group projects, and cybersecurity challenges, I have strengthened my problem-solving, communication, and teamwork skills. I am a quick learner who's eager to grow within a real software engineering environment.

Technical Skills

Languages: Python, Java, C (fundamentals), HTML, CSS, C# (fundamentals)

Tools and Platforms: GitHub, Git, Visual Studio Code, Raspberry Pi / GPIO, Linux, Unity, 3DS MAX, GNU Octave, MS Office Suite

Concepts: Object-Oriented Programming, Data Structures and Algorithms, Reinforcement Learning, Gymnasium (OpenAI), Operating Systems, Web Development

Currently exploring: Game AI, Pygame, Reinforcement Learning, full-stack development, Unity

Education

BSc (Hons) Computer Science, University of the Western Cape Current

- Honours Mini Thesis: Designing and implementing a custom strategy game called Bloomward
- Relevant modules: Advanced Software Engineering, Immersive Technology, Advanced Immersive Technology, Big Data Engineering, Artificial Intelligence, Reinforcement Learning, Honours Project

BSc Computer Science, University of the Western Cape 2022 – 2025

- Academic average: 65–70%
- Relevant modules: Data Structures and Algorithms, Software Engineering, Operating Systems, Computer Networks, Artificial Intelligence, Financial Mathematics, Calculus

National Senior Certificate — Bachelor's Pass, 2021
CBC St. John's High School, Parklands

Projects and Technical Activities

Bloomward, Honours Research Project Present

Python, Pygame, Gymnasium (OpenAI), Reinforcement Learning, Game AI, Unity

- Designing and implementing a competitive strategy game as a Gymnasium-compatible reinforcement learning environment for my Honours research, currently built in Python with Pygame and structured as a full Markov Decision Process.

- AR Cosmic Quest, Unity AR Mobile Application** 2026
Unity, AR Development, C# Fundamentals, 3D Interaction
- Developed a Unity-based AR mobile application with interactive 3D elements
 - Worked with scenes, asset integration, navigation, UI, and basic C# scripting
 - Built and presented a functional interactive application
- Brain.exe, Student Study Platform** 2025
Group Leader, Software Development, UI/UX, Desktop Application
- Led a team project to develop a desktop study-support platform
 - Coordinated task allocation, planning, communication, and progress
 - Contributed to the UI design and user-focused layout
 - Assisted with compiling the final project report and documentation
- CTF Zero Days Cybersecurity Challenge** 2025
- Linux, Network Security, Reverse Engineering
 - Placed Third in a Capture-The-Flag event solving real-world security challenges
 - Developing skills in network scanning, privilege escalation, Linux security, and reverse engineering

Experience

- Third-Year Computer Science Tutor, University of the Western Cape** 02/2026 – Present
 Bellville, Cape Town
- Assisting undergraduate students with programming concepts, practical assignments, debugging, and problem-solving techniques
 - Providing guidance during tutorials and practical sessions while encouraging independent learning and critical thinking
- Sales Consultant, Hurley** 12/2022
 Table View, Cape Town
- Provided customer service, operated POS systems, and managed stock inventory during a high-volume festive contract

Entrepreneurship

- Founder — NailsbyRo (@nailsbyro.ltd)** 2023 – Present
- Built and manage a growing client base for custom press-on nail sets, handling all client communication, pricing, and delivery.
 - Developed branding, social media presence, and content strategy independently on Instagram

Volunteer Work

- Interact Club — CBC St. John's High School** 2018 – 2020
- Rise Against Hunger meal-packing events (Aug 2018, Dec 2019, Jan 2020)
 - Tree Planting Initiative (Feb 2020) and Adopt-A-Pet Shelter Visit (Nov 2019)
